¹We collect data on the individual young people who participate on Summer and Autumn programmes, and Changemaker events. This enables us to calculate the number of young people who did a Summer or Autumn programme and attended a Changemaker event. Row 10 shows the total number of young people who participated in each service line. Row 6 shows the unique number of young people who participated, where possible. There were 6,761 young people who participated in Summer/Autumn and Changemakers so this figure is not included in the total. It's possible that there could also be some overlap with Skills Booster or Futuremakers participants but we aren't currently able to quantify this. Winter residential is calculated in a similar manner to Skills Booster and individual unique young person participation cannot currently be identified.

²An additional 1,667 young people took part in Skills Booster events in the period from January to the end of March 2022 that counted towards this year's targets.

Number of YP hours is rounded down, hence the total hours not being equal to the sum of all regions or local authorities. Some participants also took part in events run by partners from different regions, hence the sum of the regional participants does not equate to the total participant number.
